

Bishal Gupta

Software Engineer | Data Analyst | Data Science Graduate Student

Yonkers, NY | 929-494-7684 | Nyc16Bishal@gmail.com | LinkedIn | GitHub

Professional Summary

Results-driven Software Engineer and Data Analyst with 5+ years of experience developing scalable web applications, building data-driven solutions, and collaborating in Agile environments. Strong foundation in Python, SQL, React, Angular, Java, and data analytics. Currently pursuing a Master of Science in Data Science with a 4.0 GPA. Passionate about leveraging software engineering and analytics to solve business problems and drive measurable impact.

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, SQL

Frontend: React, Angular, HTML5, CSS3, Bootstrap, SASS

Backend: Spring MVC, Spring Batch, Hibernate, REST APIs

Databases: MySQL, Oracle, MongoDB

Analytics: Pandas, NumPy, Data Visualization, Statistical Analysis

Tools: Git, GitHub, Jenkins, Maven, Agile/Scrum, JUnit, Jasmine, Karma, Splunk

Professional Experience

Software Developer – Google (via Denken Solutions) | May 2022 – Feb 2025

- Developed Angular and React user interfaces to improve application functionality and user experience.
- Collaborated with software engineers, UX designers, and stakeholders in Agile teams.
- Built reusable React components and TypeScript modules to accelerate development.
- Created automated tests using Jasmine and Karma.
- Supported MySQL and Oracle database enhancements and schema updates.

Full Stack Developer Fellow – Youbble | May 2020 – Sep 2020

- Developed responsive React applications using component-based architecture.
- Built dashboard visualizations using D3.js and React.
- Optimized API integrations and improved application efficiency.
- Participated in code reviews, Git workflows, and Agile ceremonies.

Junior Data Analyst – World Financial Group | Dec 2018 – Aug 2019

- Analyzed business data and developed reporting solutions to support decision-making.
- Wrote SQL queries and database scripts for data extraction and validation.
- Collaborated with business stakeholders to gather requirements and deliver solutions.
- Supported CI/CD pipelines and software testing processes.

Education

Master of Science in Data Science – Saint Peter's University | GPA: 4.00

Bachelor of Science in Computer Science – Saint Joseph University | GPA: 3.82

Associate in Computer Information Systems – ASA College | GPA: 3.79

Recommended Projects to Add

- Big Data Analytics using PySpark and Databricks
- Machine Learning prediction models in Python
- React/Angular full-stack applications
- SQL and Power BI/Tableau dashboards
- Data Science portfolio hosted on GitHub
